AUXDATA UPDATE # 10

PICK LIST CHANGES

There is an ongoing effort to refine the various pick lists to eliminate items in the Sub Mission choices that have no relevance to the parent mission.

Examples of changes made last week are:

For the Auxiliary Administrative Support Mission (AUXADMN) -

The Sub Mission choices ADMIN (08) and UDE (92) were eliminated.

These Sub Missions are properly found under the CGADMN mission.

For the Commercial Vessel Examination Mission (CVE) –

The Sub Mission choices COMFVSL, UNPASVEL were eliminated.

These Sub Missions are found under the VSC mission.

The Sub Mission choice TBOAT was eliminated and relocated to the VSC mission.

For the Member Training Mission (MT) –

The VIRTINST Sub Mission was eliminated. The few activities reported there are being credited to the “Other Member Training” Sub Activity.

Through out the pick lists, to help with the transition from AUXMIS to AUXDATA, the old AUXMIS Category numbers are being added where missing.
